GOTEMP

Simplify food safety with GoTemp.

GoTemp is a mobile app paired with a bluetooth infrared thermometer that automatically recognizes food items while logging temps, removing all manual steps from the temp process.

GoTemp ensures HACCP compliance.

GoTemp is the only temping solution built by restaurant operators specifically with sandwich shops in mind. It's even pre-configured with Jersey Mike's products, no setup required!

Why choose GoTemp?

1 | Offers the convenience of an infrared thermometer with the flexibility to plug in a probe when needed.

2 | Automatically recognizes food while logging the temp, photo, and time... temp logs are tamper-proof.

3 | Pre-configured with Jersey Mike's-specific corrective actions, photo verification, and automatic timers.

4 | Real-time alerts and automated reports let you monitor from anywhere.

5 | Integrates with ZippyYum's full product line including inventory, labeling, checklists, and much more!

Order GoTemp Today

Visit www.zippyyum.com/shop to purchase GoTemp and use the password: asubabove to enter the store.
